NEW Convertible Free Motion Quilting Foot Set for 9mm models

The highly popular interchangeable free motion quilt foot can now be used with 9mm sewing machines! This foot was developed for using in the left needle position for straight stitch which is most suitable for free motion quilting on 9mm machines. For beautiful, high quality free motion stitches that will take your work to a new level, why not try the NEW Convertible Free Motion Quilting Foot Set?

Compatible with MC 9900, MC8900QCP, MC8200QC and 7mm high shank models

*When using 7mm high shank models, please set the needle position to 0.0.

Part No.:202-146-001

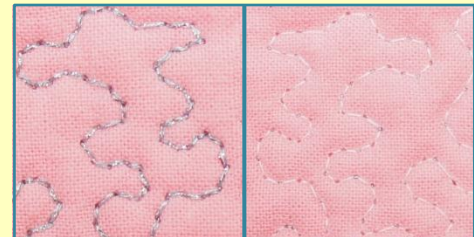

Point 1 The Secret to Beautiful Free Motion Quilting!

By using the left needle position for straight stitch on 9mm machines, greater stability can be achieved allowing beautiful stitches to be sewn. That is to say, even if the fabric becomes separated from the foot when being moved around, it is difficult for skipped stitches to occur. Consequently, if you use this foot when free motion quilting, you can achieve both beautiful stitches AND increased freedom to create.

Front side

Back side

Needle thread: Polyester 100% lamé thread
 Bobbin thread: Janome embroidery bobbin thread
 Needle: Janome Purple tip needle (size #14)

Point 2 Special Foot Design

The foot attachments can be changed to match the fabric and intended use. Using the center needle position is also possible! For safety's sake, there is also space for using the center needle position.

Close-toe foot
 *For general use
 *Lace or catchable fabric
 *For left needle position

Open-toe foot
 *For general use
 *Extra visibility
 *For left needle position

Clear view foot (L)
 *For uneven surfaces and evenly spaced quilting
 *For left needle position

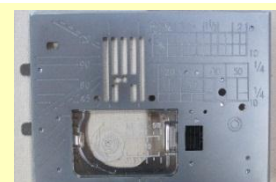

Clear view foot (M)
 *For zig-zag stitch and center needle position

Point 3 Combine with other accessories to achieve some of the best stitches ever.

Matching the foot with the straight stitch needle plate or the purple tip needle improves stitch quality dramatically. Please try using the foot together with these accessories.
