

DigitizerJr V3.0K Update Installation Instructions

What user can update DigitizerJr with this Update program?

1. This DigitizerJr V3.0K update program is for those who would like to update from existing **DigitizerJr V3.0C English Version or DigitizerJr V3.0F /G Multi-language Version** installation with a working DigitizerJr dongle.

If you do not have DigitizerJr **V3.0C** or **V3.0F /G** already installed, you will need an update/upgrade kit with an update/upgrade dongle in order to update/upgrade a previous release of the Janome digitizing software.

If you have already installed DigitizerJr **V3.0K**, you do NOT have to do this update.

2. Although **French, Spanish, Italian, German, Japanese, Chinese Traditional** and **Thai languages** are available with this update, these languages will **NOT** be updated **unless** you have already installed the languages before updating.

You need a FULL DigitizerJr **V3.0K** (Multi-language 2) installation software to add **French, Spanish, Italian, German, Japanese, Chinese Traditional** or **Thai language** or any additional languages.

Please contact your Janome dealer to obtain a copy of **DigitizerJr V3.0K Multi-language Full Installation CD-ROM**.

Note: The update program includes the English online manual only. If you would like to obtain the latest online manual in French, Spanish, Italian, German, Japanese, Chinese Traditional or Thai language, please contact your Janome dealer to obtain a copy of DigitizerJr V3.0K Multi-language Full Installation CD-ROM.

Installation checklist

Use the following as a checklist of all necessary steps to follow when installing and configuring your new DigitizerJr software.

1. Read through all necessary installation steps carefully before getting started.
2. When the installation is complete, you will be prompted to restart your computer.
3. Attach your security dongle only when prompted.
4. Close all Windows programs but leave Windows running. Disable any virus scanning software you might be running in the background. Be aware of any messages from your firewall software requesting you to block access to any components of the installing software. DO NOT block any of the components.

Note: Most of your existing DigitizerJr default settings will automatically be merged with the update installation.

Installing DigitizerJr V3.0K Update

Use the procedure outlined below to update DigitizerJr software on your computer.

Note: This update does not force a restart of the PC at the end of the installation as in previous updates.

To install the DigitizerJr Update

1. Download ONLY file 'Disk1.exe' and save it on your PC.

Disk1.exe

2. Double click 'Disk1.exe.' The file is unzipped and the folder named as "**DigitizerJrV3ML2Update**" is created automatically under C drive.

3. Download the remaining two files - data3 and data4 – directly into My computer > C > **DigitizerJrV3ML2Update** which was created in the previous step.

data3.cab

data4.cab

4. Double click 'setup.exe' icon in **DigitizerJrV3ML2Update** folder to start installation.
5. A Welcome screen is displayed showing your current version and the version to which you are updating.
6. Click 'Next.'
7. Click 'Install.' Installation starts automatically.
8. Click 'Finish' to complete the installation.
9. Attach DigitizerJr dongle on your PC and double click the desktop icon to use the updated software.
