

DigitizerPro/MB V3.0N Update Installation Instructions

What user can update DigitizerPro/MB with this Update program?

1. This DigitizerPro/MB V3.0N update program is for those who would like to update from existing **DigitizerPro/MB V3.0D English Version** or **DigitizerPro/MB V3.0J / K / M Multi-language Version** installation with a working DigitizerPro/MB dongle.

If you do not have DigitizerPro/MB **V3.0D** or **V3.0J / K / M** already installed, you will need an update/upgrade kit with an update/upgrade dongle in order to update/upgrade a previous release of the Janome digitizing software.

If you have already installed DigitizerPro/MB **V3.0N**, you do NOT have to do this update.

2. Although **French, Spanish, Italian, German, Japanese, Chinese Traditional** and **Thai languages** are available with this update, these languages will **NOT** be updated **unless** you have already installed the languages before updating.

You need a **FULL DigitizerPro/MB V3.0N (Multi-language 3)** installation software to add **French, Spanish, Italian, German, Japanese, Chinese Traditional** or **Thai language** or any additional languages. Please contact your Janome dealer to obtain a copy of **DigitizerPro/MB V3.0N Multi-language Full Installation CD-ROM**.

Note: The update program does NOT include any updated online manual. If you would like to obtain the latest online manual, please download it separately from the Janome Global website.

Installation checklist

Use the following as a checklist of all necessary steps to follow when installing and configuring your new DigitizerPro/MB software.

1. Read through all necessary installation steps carefully before getting started.
2. When the installation is complete, you will be prompted to restart your computer.
3. Attach your security dongle only when prompted.

4. Close all Windows programs but leave Windows running. Disable any virus scanning software you might be running in the background. Be aware of any messages from your firewall software requesting you to block access to any components of the installing software. **DO NOT** block any of the components.

Note: Most of your existing DigitizerPro/MB default settings will automatically be merged with the update installation.

Installing DigitizerPro/MB V3.0N Update

Use the procedure outlined below to update the DigitizerPro/MB software on your computer.

To install the DigitizerPro/MB Update

1. Download ONLY file 'Disk1.exe' and save it on your PC.

Disk1.exe

2. Double click 'Disk1.exe.' The file is unzipped and the folder named as "**DigitizerV3ML3Update**" is created automatically under C drive.

3. Download the remaining three files - data3, data4, data5 – directly into My computer > C > **DigitizerV3ML3Update** which was created in the previous step.

data3.cab

data4.cab

data5.cab

4. Double click 'setup.exe' icon in **DigitizerV3ML3Update** folder to start installation.
5. A Welcome screen is displayed showing your current version and the version to which you are updating.
6. Click 'Next.'
7. Click 'Install.' Installation starts automatically.
8. Click 'Finish' to restart your PC.
9. When your PC is restarted you are prompted to attach DigitizerPro/MB dongle.
10. Attach DigitizerPro/MB dongle on your PC to complete the update.

Note: If the machine driver installation can not be successfully completed for any reason, the device driver will need to be installed manually via the device manager of your PC. Please contact your local Janome Software Support for details.

Update the Online Manual (English)

- 1 Download the updated online manual file, **UserManual.pdf**.

UserManual.pdf

- 2 Save a copy and overwrite it into **C> Program files> Janome>DigitizerPro> BIN** folder.
