Ultra Glide Needle Plate & Ultra Glide Foot Set for 9mm model

Materials like vinyl which stick to the presser feet or the needle plate, are very difficult to sew with a sewing machine. To make things easier for you, Janome has developed the “Ultra Guide Needle Plate & Ultra Glide Foot Set”. By using this set, you will be able to sew difficult fabrics beautifully. This set will undoubtedly become a great ally for your sewing life.

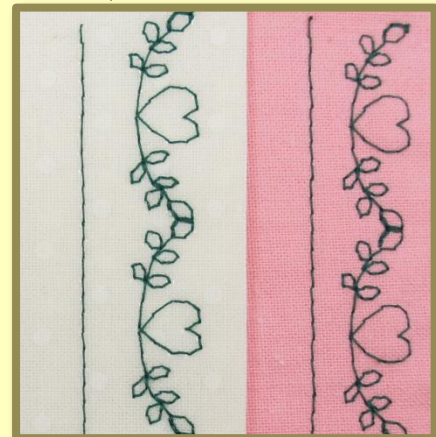

Part No.: 202-201-005

Compatible with all 9mm models
(MC15000, MC12000, MC9900, MC8900QCP, MC8200QC)

Point 1 The secret of the Ultra Glide Needle Plate & Ultra Glide Foot Set!

A feature of this set is the special process that has been applied to the needle plate and foot. Fabrics that would normally stick to the needle plate and presser foot can now be sewn with ease. As well as this, the Ultra Glide Foot can also be used for stitches other than simply straight stitch. The Ultra Glide Needle Plate and the Ultra Glide Foot can also produce results when used separately and as both are removable with just one touch, they can be replaced with ease.

Laminated fabric Cotton fabric

*The Ultra Glide Needle Plate and Ultra Glide Foot Set can be used for both.

Point 2 Compatible with all 9mm models!

The Ultra Glide Needle Plate is compatible with all 9mm models and comes with Easy Set Bobbin capability. This needle plate has a bobbin case thread cutter attached so thread tails can be cut easily. As a result, it's not necessary to pull the bobbin thread away from the needle holes. It's also possible to attach to models for which the needle plate is not the Easy Set Bobbin type.

(MC12000, MC8900QCP, MC8200QC).
