Pintucking Cord Guides for Easy Set Bobbin models

Pintucking cord guides for Easy Set Bobbin model machines are here! Using these guides, it will be easy for you to create beautiful pintucks with cords. Why not try using the pintucking guides to add attractive features to your sewing?

*Please use the Janome's

Twin needle #14. (No. 607-404-007)

For some models, the twin needle is a standard accessory and for other it is an optional accessory.

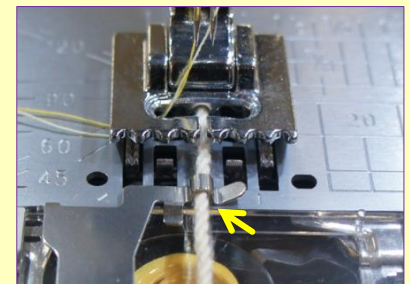

Compatible with Easy Set Bobbin type sewing machines (7mm/9mm) and models with the Ultra Glide Needle Plate attached.

Part No.: 202-213-000

Point 1 The cord guides match different sizes of cord!

Choose from 2 types of cord guides to match the cord you are using. Matching the guide to the cord will prevent the cord from getting stuck or moving around loosely in the guide.

Pintucking Cord Guides type	Cord diameter	Pintucking Foot
A	Less than 1.5 mm	Narrow type
B	1.5 - 2.0 mm	Wide type

Point 2 You can make various pintucks!

The pintucking cord guide and foot combination enable you to create gently curved pintucks which are not possible to make using the normal folding method.

Straight lines

Close lines

Cross patterns

Gentle curves

Pintucks bag

For machines other than Easy Set Bobbin types.
