~New Accessory~

Ribbon Sewing Guide

Make your own original ribbons by adding decorative stitching or lettering. Whether used to embellish quilts and apparel, made into scrapbooking decorations, or even used for wrapping that special gift, you can add originality to all of your projects.

Part No.: 200444408
(Blister package)

Point 1

Beautiful results on wider ribbons

It is now easier than ever to add decorative stitching to wider ribbons. With the new ribbon sewing guide, you can decorate ribbons up to 25 mm (1") wide.

Point 2

Make the most of your computerized sewing machine

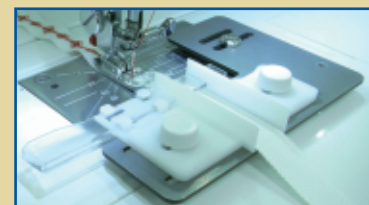

The ribbon sewing guide gives you another avenue to take advantage of the many decorative stitches included with your computerized machine. And you can use the monogram fonts to add a message or personalize your ribbons.

Point 3

Smart engineering for easy-to-use design

- Easy to attach: just screw into attachment hole on or near the needle plate*
- Automatic centering for quick and simple ribbon setting
- Transparent stabilizer bar for perfect control

* Not available for machines without attachment hole such as MC10000, MC10001.
