Brush-out Embroidery -Create with Digitizer!-

The Brush-out Embroidery Kit lets you embroider with yarn and fluff up to create a soft, dimensional finish. Just brush the finished surface to achieve an adorable fluffy look. Even without fluffing up, you can also create unique and interesting textures using various types of yarn!

Part No.: 200383006

Sample

Part No.: 254729005 / 254730009

With the release of the new Digitizer series, you now have even more features for designing and creating your own brush-out designs to use with the kit. With Digitizer, you can create original brush-out designs by editing existing designs or digitizing your favorite illustrations or even drawings by your children/grandchildren, and with DigitizerPro/MB you can also free-hand digitize your own original designs. You can have limitless possibilities combining the Brush-out Embroidery Kit and Digitizer.
